

"...the only port of call you'll ever need..."

Kenter Joining Shackles

Kenters are shackles designed specifically to join two pieces of chain together.

In the marine industry Kenter Joining Shackles are particularly useful in the joining together of mooring and anchor chains. Made from heavy duty forged steel, LMS can supply Kenters, ex-stock.

Please refer to the technical data table below. To receive a competitive quotation, please send us your email enquiry to us today at sales@liftingandmarine.com

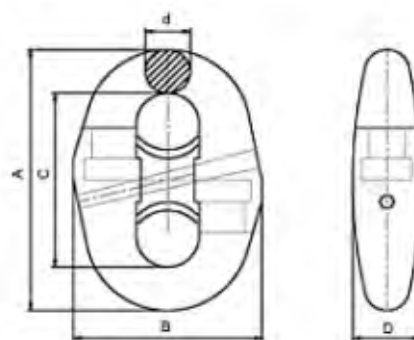

Technical Schematics :

Note:

Technical data is for guidance only - for exact specification, please contact our sales team

Size	mm A	mm B	mm C	mm D	Kg
76	456	319.2	304	114	67
84	504	352.8	336	126	86
95	570	399	380	142.5	123
102	612	428.4	408	153	151

D = Size of Kenter

Note: nominal variations weight and dimensions possible when supplied
