

*"...the only port of call you'll ever need..."*

## Recessed Shell Bitts

Recessed shell bitts are manufactured to be used on vessels using the Panama and Suez Canal, or where the rope needs to be attached to a ship's hull without any protrusion.

## Technical Schematics :

### Note:

Technical data is for guidance only - for exact specification, please contact our sales team

Nominal Size of Bitts (tonne)	Weight Kilos	A mm	B mm	C mm	D mm	ØE mm	F mm	G mm	H mm	J mm
20	105	440	350	250	105	81	360	150	125	230
50	285	850	660	445	115	165	675	355	240	362
